

NEWS AND VIEWS . . .

And What Have You

By BOB CRAIG

We think it speaks well of our school that Hamlin High School was one of three schools that had students attending the Abilene visit of Secretary of State Dean Rusk last Friday. Hawley and Abilene Cooper were the other two schools represented, to have groups hear the Secretary.

We commend B. V. Newberry, our HHS principal for making the arrangements for the seniors and a few juniors to attend the convocation at Hardin-Simmons University.

If the students were as impressed with the Secretary's speech as we were, it was certainly worth the time and effort involved in getting them over there. One of the things that impressed me the most was the way Mr. Rusk talked directly with the students without the use of a prepared text.

When you can turn on your TV and see live coverage of important people from all over the world, we sometimes forget that it is still a rare privilege to hear and see someone of Rusk's stature in person.

Because the Abilene Reporter-News evening edition has only limited circulation outside of Abilene we are reprinting an editorial out of the Monday afternoon paper.

Some of the most important parts of Secretary Rusk's speech are highlighted in this editorial — the parts that we feel that everyone should consider.

"1. The charter of the United Nations reflects the lessons learned in World War II. Rusk urged his listeners that if there were any one thing they remembered from his speech, it should be that 'we will have no opportunity to use any lessons from World War III — there will be nothing left.'"

"Therefore he emphasized, 'how to organize a durable peace in the world' is the question that determines the survival of mankind. 'It is no longer a figure of speech.'"

"2. In this nuclear age, the United States, with its awesome military power, 'must be predictable' in its foreign policy so even our adversaries will know in advance how we will act. We must pull no surprises."

"He was saying we cannot risk explosive tempers, impulsive anger."

"3. 'Draw a map of the world, Rusk suggested, and see how it would look if we had not resisted aggression — Iran, Turkey, Greece, the Congo, Korea, South-east Asia.' Had we not done so, he declared, 'it would be an almost intolerable situation' for the United States and freedom loving people."

"Our involvement in Vietnam is, in principle, a continuation of our 20-year policy of opposing Communist aggression' Can anyone doubt that the tide of communism would roll over all the nations of the earth if the United States had not checked it?"

"In truth, most of us average Americans have not fully grasped the horror of what a nuclear war would be, hence we do not fully understand the urgency of the nation's foreign policy, nor appreciate the conduct of it."

"Too, we fail to view the full sweep of history of the past two decades to relate what has happened in the past to what is happening today, and to contemplate what might have been had we not acted as we did."

"It is a good thing that the folly of some does not prevail at the level of decision making in Washington."

That Rusk could be in Abilene for a speaking engagement in the morning and be in Washington in the afternoon for a treaty signing ceremony points up what most of us find hard to get used to.

We are living through an age of transition from the horse and buggy age to the jet and rocket age and fail to comprehend that the world has shrunk to the point where no place is too far away to be important to us.

We seem to like the advantages of this space age but we prefer not to understand we must accept the responsibilities that go with this smaller world.

We must agree with the editor of the Abilene Reporter-News in that it is a good thing that we have far-sighted men in Washington handling our world problems for us.

USDA Ruling to Mean \$300,000 to County Farmers

Jones County farmers were among those gaining relief from penalties imposed on Skip-Row cotton farmers by USDA's cotton projection for 1967 when the department authorized 20,503,296 additional pounds of cotton to be granted to Texas for various inequities in projected yields last Friday, according to word received here.

Based on figures furnished by the Rolling Plains Cotton Growers, Inc., this could mean more than \$300,000 to Jones County farmers and as much as \$2 million to the 32 counties in the Rolling Plains area.

The relief brought to the area farmers was the result of a meeting in Washington on January 6 between area cotton men, area congressmen, state senators and the Department of Agriculture. Area organizations have been working on this problem since October 7 when the inequities were first brought to light.

The extra poundage made available to

Texas for adjusting inequities which may exist in 1967 farm projected yields will replace only about two-thirds of the poundage lost to area cotton farmers.

Charles Stenholm, executive secretary of the RPCG, said "The RPCG is highly elated at the decision of the Department. They have recognized the inequity of the current skip-row rules and promises a hard look at rules for 1968. This is our final goal, that of returning to measuring a stalk of cotton in the Rolling Plains just like a stalk anywhere in the U.S."

Stenholm added, "We are very fortunate to be represented in Washington by such able men as Omar Burleson, George Mahon, W. R. Poage, Graham Purcell, John Tower and Ralph Yarborough. Special consideration should be given your local congressmen because he highly deserves it."

This problem for cotton growers of the area came about through a ruling by the USDA

that says the skip-row penalty would be retroactive for 2-1 and 2-2 cotton planted in 1962-63-64-65. Consequently, projected yields in skip-row areas are considerably lower than they should be, according to Stenholm.

Beginning in 1966, Rolling Plains farmers have changed to a 2-4 system of planting, which is a no-penalty system. "But," Stenholm pointed out, "from 1962-65, farmers who planted under a 2-1 and 2-2 system were also planting under a no-penalty system. Now the USDA wants to change the rules in the middle of the game."

The heart of the protest by area farmers has been that when a rule is written that has the effect of saying a stalk of cotton that makes 10 bolls in 1962 is now only entitled to 7.7 bolls in 1967.

According to a letter from John A. Schnitter, Under Secretary of Agriculture, the ASCS State Committees have been notified that they may use a poundage of up to three pounds per

acre times the State Upland cotton allotment as a reserve to adjust unusual hardship situations and inequities which may exist in 1967 farm projected yields in one or more counties in each state.

This reserve will be available to county committees and used for farms in such counties which cannot secure relief by proving yields and which are not in position to request relief on the basis of similar farms since the conditions which resulted in the low yields covered a wide area.

In his letter Mr. Schnitter said, "It is our view that State Committees working with County ASCS committees can through their actions alleviate hardships and inequities which may exist on farms within the state."

This announcement is being interpreted by the RPCG as acknowledging inequitable conditions in the Rolling Plains area brought about by the current skip-row penalty regulations.

\$1.00

BOYS' SWEATERS

All sizes left in the worst colors in pullovers and cardigans. The girls bought the best looking ones for themselves — You boys wouldn't want to take what the girls have picked over would you for say —

1/2 Price

LADIES' HATS

Yes, we didn't even bother to count how many we have left. Very few women have liked them through the whole season. We really don't expect you to like them either. Just in case you do, however you may have one for

\$1.00

BOYS' CORDUROY OVERALLS

If you are the person that wants to trade at home and are figuring on buying corduroy overalls in 1967 you had better come on in and buy them now as all buyers have strict instructions not to rebuy these next year — We have about a dozen pair left in sizes 2 to 4 at

\$1.49 pair

MOD BELTS

If you buy one of these your girl friend wouldn't be caught dead with you. This is the wide belt that was supposed to be so "hot" this season. Believe you me if we don't sell these reg. \$2.00 belts at the price of

\$1.00

MEN'S Arrow Colored DRESS SHIRTS

You might think these were made of scraps and had material the way you have picked over them (You could be right too) They are pima cotton, solid colors, regular collars. I think it will take more description than this to sell these reg. \$5.00 shirts at

2 for \$5.00

BOYS' SPORT COATS

Every customer says let me see the boys sportcoats but when they find out that we will let them have a suit (coat and pants) for the same price as the sport coat they always say "Well I guess that I will just take the suit." There you go, another sportcoat is left hanging on the rack—

\$5.00

GIRLS' TIGHTS

These were tight but some of the elastic has been stretched a little and now they may not be too tight. Mostly the girls 8 to 14 sizes left — Want to try a pair

49c

LADIES' PANTS

Pauline says she is just flat tired of looking at this group of pants. They even have 2 legs in them. They really aren't pretty and the colors wouldn't match anything in the store. Mostly cottons, denims, etc. Values to \$3.98 —

\$1.00 pair

LADIES' ROBES

Approximately 14 of these left. If you have sensitive skin, then don't buy one of these or at least that is the way it seems robes have affected customers lately. They are quilted types and Arnel fleece that we tried to sell up to \$12.95. We aren't telling you the sizes left as maybe you will buy one too small or large at the low price of

\$6.88

GIFT TABLE Merchandise

Ladies be thrifty (Also help us get rid of this stuff). Our entire stock of ladies' gift items that sold so good around Christmas. We will do anything to get rid of it as we would like to start fresh next season and buy a lot more junk to sell on our White Elephant Sale next year. If you don't take it for

1/2 Price

BOYS' VELOUR SHIRTS

Kinda sissy looking, but they say they go good with the longer hair and are very, very comfortable — If you can think up a reason to buy one of these Reg. \$7.00 shirts we are going to question you why or tell anyone that you did buy one for

\$3.99

MEN'S AND BOYS' TROOPER CAPS

The kind with the big fuzzy flaps. They sure won't improve your looks any but will keep your bald head warm. At one time our best seller. Now our biggest buying mistake. Reg. \$2.98. Could you see your way clear to take one for

\$1.00

CORDUROY

We have about 10 colors left to let you choose from. All lousy colors that nobody else wanted to buy. Sure is nice of us to let you have what is left don't you think? Would you buy it at

2 yds. for \$1.00

MEN'S Thermal Tops and Bottoms

These are the ones made in Japan and do they look it. The size large fits about like an American made small. We sold these good at one time, but the customer soon learns if he ever once buys one that he doesn't want another one. If you are one of the lucky ones that have never tried these how about

50c per garment

LADIES' SWEATERS

If you have a fine sweater in mind, don't look at these. Evidently something is wrong with everyone of them as they are made by good makers such as Catalina, Bobbie Brooks and Donovan. We have one group to clear at

\$3.88

One group \$5.00

One Group \$7.00

GIRLS' CAPS

We have been waiting and hoping for a little snow (or rain) thinking maybe these would sell — it's getting late now—want to take a chance you will need one — They were \$1.49 and \$1.98 now

88c

Pendleton Shirts

Three of these nice all wool shirts left. What happened to all of you high class guys that used to wear this reg. \$14.95 shirt anyway? Have you stepped down a notch? Would you try one of these

\$7.00

The Lord is my shepherd

The 23rd Psalm is one of the most familiar chapters in the Bible. Early in life, most of us have committed it to memory. Every once in a while we should go back to these verses and think of the wonderful message of faith and trust in God that they reveal to us. They show us that we have a loving Father; one who will show us the right paths; one who will protect and provide for us. These scriptures end with a note of thanksgiving and a promise. "Surely goodness and mercy shall follow me all the days of my life; and I will dwell in the house of the Lord forever." Plan to start a regular worship in the Lord's house this Sunday.

The Church is God's appointed agency in this world for spreading the knowledge of His love for man and of His demand for man to respond to that love by loving his neighbor. Without this grounding in the love of God, no government or society or way of life will long persevere and the freedoms which we hold so dear will inevitably perish. Therefore, even from a selfish point of view, one should support the Church for the sake of the welfare of himself and his family. Beyond that, however, every person should uphold and participate in the Church because it tells the truth about man's life, death and destiny; the truth which alone will set him free to live as a child of God.

HHS Students to See Program On Dangers of Fire Friday

Students of Hamlin High school will have an opportunity to see for themselves how fire can be man's best friend or his worst enemy by observing a graphic fire demonstration to be presented at 2 p. m. Friday, B. V. Newberry, principal, announced today.

The demonstration, in seven parts, will be given under the direction of Joe Smetana, Safety Director of the Texas Farm Bureau.

A variety of demonstration equipment will be placed on tables 16 feet in length to illustrate seven basic points: (1) What fire is; (2) How to control fires; (3) The fact that nothing is fire-proof; (4) Kitchen fires and their control; (5) Fuel vapors; (6) The power of petroleum products; and (7) Household wiring and overloaded electrical circuits.

Smetana will point out that fire is like a three-legged stool — it can't work with one of the legs missing. The "legs" fire depends on are: (1) fuel, (2) heat, and (3) air. Yet, in American homes these three things come together in deadly and destructive combination every 157 seconds — an average of 1,500 home fires every day, according to Smetana.

"That's eight times the number of fires in factories and stores. Worse yet, four out of five of all fire deaths occur in homes, and for every death there are about 100 serious injuries," the TFB Safety Director explained.

As part of a program for fire prevention, The Texas Farm Bureau Safety Department has presented this demonstration over 400 times for some 125,000 people. The program is being brought to Hamlin under the sponsorship of the Jones County Farm Bureau. The public is invited to attend.

The group included Valinda Skaggs, Mike Bailey, Karen Lee, Carolyn Dockins, Kenneth Dockins and Debra Hollis. They were accompanied by Mrs. Weldon Counts and Mrs. Monroe T. Tabb.

Mr. and Mrs. John Ledesman, Rt. 1, are parents of a boy, Lanito, born Jan. 28 at 6:57 p. m. He weighed 8 lbs. 7 oz.

Elects Officers
The Fourth Grade Camp Fire girls elected new officers. Donna Early is president; Vickie Ponder, vice president; Janice Miller, secretary; Kelly Bradshaw, reporter and Margie Roddy, treasurer.

FOUR SQUARE YOUTHS VISIT ABILENE ZOO
The Cadet Crusaders of Foursquare Gospel Church went to the Abilene Zoo Monday afternoon and had supper in Abilene.

Singing Sunday
The Hanna Baptist Church will have a singing Sunday at 2 p. m.

Mrs. George Tidwell, secretary, is inviting the public to attend and also urges any quartet or other singing groups to attend.

Miss Roddy introduced the FHA Beau, Jones, son of Mr. and Mrs. Carl E. Jones, was honored earlier this year when his selection was announced at an assembly.

Theme for the program was "Around the World with FHA" as Mrs. James E. Simmons, homemaking teacher, took the group on an imaginary trip to Europe using slides taken on her trip last summer.

The decorations included travel posters and globes. The high school cafeteria, scene for the banquet was illuminated by candlelight. The members and their guests were seated at foursome tables.

Entertainment was furnished by a newly organized instrumental group, the Tequila Brass. The group includes Margaret Johnson, Randy Smith, Sammy Ferguson, Bill Johnson, James Knabel, Randy Wiseman of Haskell, Randy Morgan and Chris Perrin. Jayne Turner was chairman.

On Tour With Concert Choir

The choir will return to the campus after appearing at the First Baptist Church in Sherman Friday evening.

THE WATT and THE KILOWATT
Producing power is a gigantic battle with nature. The windmill produces enough power to pump water from the ground—something a few watts of electricity can do. But the huge generating plants which produce the power transmitted over the vast network of WTU transmission lines which reach from the Red River to the Rio Grande are measured in kilowatts—hundreds of thousands of them. Power enough to serve 166 cities and towns in 50 West Texas counties. You can live better electrically—West Texas Utilities provides the kilowatts.

SYLVESTER NEWS...

By Mrs. R. M. Babb
Good morning and really there isn't any thing to really fuss about so we just won't do any complaining. Things are going good for all of us and we just don't accept of the good things the Good Lord has for us.

Visited Don Kelly in Hendrick Hospital on Sunday afternoon and he seemed a wee bit better but he still has a long way to go so never, never forget he and the family in your daily prayers.

Mr. E. C. Kiser has spent several days in Hamlin Hospital due to a bad gall bladder, he is feeling much better and hopes to be home real soon. Several members of the Baptist Church attended and enjoyed the Workers Conference at Highland Home Church on Monday night.

The Fred Turners enjoyed a visit for several days here with

their friends, Mr. and Mrs. Roy B. Collier of Brownfield. Mrs. Ross Douglass came Sunday after a weeks stay in Hendrick Hospital due to the injuries she received on Monday night at the wrestling matches. Lenora, I will try wrestling our Falcon but haven't decided to try professionals yet!

Mrs. Emma Henry spent a few days in Callan Hospital but is back in Golden Age Home at Roby doing well.

Mrs. Milt Montgomery spent some two weeks visiting in San Angelo and Merten but is home now. She was quite ill while there.

Mr. and Mrs. Kenneth Dixon (Ruby Kelly) of Ft. Worth spent Sunday in Abilene visiting with her nephew, Don, and other members of the family.

Mr. Judson Chaneweth of Dallas visited old friends here on Saturday afternoon. It seems he was reared around Royston and married one of the Cotton girls. It is good to have former residents return for a visit. We at one time had a very nice size town; no better people than we have now but just more of them.

Best-photographed tornado was the one that hit Dallas in 1957, of which 550 different photos are known.

STATE CAPITAL Highlights AND Sidelights by Vern Sanford

Austin — They're off! And running!

With a hearing Tuesday night on a bill to legalize her e-race betting in counties where voters approve, the Legislature got into full swing. Committee actions soon will lead to final decisions.

Organization of both houses is complete. To date more than 400 bills have been introduced and referred to committees. Meetings will be scheduled mornings, afternoons and evenings to hear sponsors and objectors... to listen to those who think the bills should or should not be passed.

Floor action soon will begin in earnest and the pattern of the session will quickly take form.

Cross-Currents— One pattern emerging early has been a widening difference between the Senate and House leadership.

Senate majority seemed determined to pass a \$5,200,000 bill to give 20% overall pay raises to 40,000 state employees by March 1. Speaker Ben Barnes and the House leadership seem equally determined to prevent it, and likely will succeed.

Gov. John Connally is readying his tax program. Lt. Gov. Preston Smith, noting that spending from the state's main checking account can be \$217,000,000 higher for the coming two years from currently expected revenues without new taxes, suggested that the line be held on taxes.

These differences point up the conclusions being drawn by Capitol observers that Smith will go for governor in 1968, even if Connally tries for that unprecedented fourth term.

Bills, Bills, Bills— All 181 legislators have been busy introducing bills they feel should become laws. The range is wide, as always.

Rep. Jake Johnson of San Antonio thinks his bill to legalize the sale of liquor by the drink (labeled the LBJ bill — liquor by the jigger) has a fighting chance. His poll of House members shows 67 for, 41 against and 21 undecided. He's thus only 9 votes shy of the 76 votes needed, with 21 members yet to poll.

Rep. James Slider of Naples has one to make Texas eligible for highway beautification money from the U. S., and to allow the Highway Department to buy scenic easements to move billboards and junkyards off the roadsides.

Rep. Dick Cory of Victoria wants to repeal the new Code of Criminal Procedure lawmen are fussing about, and to restore the old law. Others are proposing changes in the new law, and Rep. James E. Nugent of Kerrville, chairman of the House Criminal Jurisprudence Committee, invited everyone with ideas for improvement to let him know.

Weldon Carter returned home from Hendrick Hospital last week after being hospitalized for about three weeks. He was in surgery twice while a patient in Abilene. He and Mrs. Carter went to the home of their daughter, Mrs. Don Gregory, when he was released from the hospital. He was reported to be getting stronger.

W. A. Putnam is a patient in a Wichita Falls hospital. Surgery scheduled for Monday morning was postponed until Wednesday when he responded to treatment and the delay would be beneficial. Mrs. Putnam and the children have been with him. The children are Mrs. Jackie (Billie) Williams, Mrs. Gene (Altha) Adams, James Horace Putnam of Roby and Mrs. Soapy (Bonnie) Floyd of Rotan.
